E-Security Analyst, Ashirvad Microfinance

Apr 2024 - Sep 2024 · Valapad, Kerala

- Architected and maintained 24/7 multi-branch CCTV surveillance infrastructure, ensuring continuous uptime across networked hardware systems, directly paralleling IT operations monitoring responsibilities
- Spearheaded coordination with branch staff to escalate and resolve security incidents, demonstrating clear communication skills and a calm, focused approach to technical problem-solving

PROJECTS

Breachlabs

⊕ [Project Link](#)

- **Architected** a hands-on training platform covering all 10 OWASP Top 10 (2021) vulnerability categories — Broken Access Control, Injection, Cryptographic Failures, and more — each as a self-contained, step-by-step lab in a HackTheBox-style interface, built on plain HTML/CSS/JS with Supabase as the backend, with server-side flag verification via a locked-down Postgres function to ensure no answers exist in client-side code

Cybersecurity Awareness Telegram Bot · Telegram Bot API, Javascript, Cloudflare

⊕ [Project Link](#)

- **Architected** a Python-based Telegram bot for cybersecurity quizzes via the Telegram Bot API showcases Python automation, API integration, and end-user engagement skills

EDUCATION

Bachelor of Computer Applications , BCA, University of Calicut

· Nov 2022 Kerala

CERTIFICATIONS

Certified Ethical Hacker (CEH), EC-Council - Expired 2025

Google Cybersecurity Professional Certificate, Coursera

Google IT Support, Coursera

ACHIEVEMENTS

Bug Bounty Researcher, Discovered and responsibly disclosed a critical WAF-bypass + LFI vulnerability via OSINT-based origin IP exposure; recognized with a monetary reward from the affected organization
